SUMMARY

B.Tech ECE student with working knowledge of Python, SQL, and Java, with a strong foundation in statistics, data analytics, machine learning, and problem-solving. Experienced in developing Python-based ML and NLP applications using Pandas, NumPy, Scikit-learn, Flask, and Streamlit. Skilled in data visualization using Power BI and Matplotlib, with an interest in data-driven decision-making and analytical problem-solving.

TECHNICAL SKILLS

Programming & Data: Python, SQL, Java, Pandas, NumPy

Data Analytics & Visualization: Power BI, Statistics, Excel, Matplotlib

Machine Learning & AI: Scikit-learn, NLP, Generative AI

Core CS: Object-Oriented Programming (OOP), Database Management Systems (DBMS), Computer Networks, Operating Systems

Tools & Development: Git, GitHub, Visual Studio Code, Flask, Streamlit

PROJECTS

Student Performance Prediction | Python, Pandas, NumPy, Matplotlib, Scikit-learn

- Built a machine learning model to predict student performance using demographic, socioeconomic and academic attributes.
- Performed data preprocessing, exploratory analysis, and feature encoding before training the predictive model.
- Integrated the trained model with a Flask web application to enable user input and prediction through a web interface.

Resume-Job Matching System | Python, Scikit-learn, NLP

- Developed an NLP-based application to measure similarity between resumes and job descriptions.
- Implemented TF-IDF vectorization for text feature extraction and cosine similarity to generate matching scores.
- Implemented match-score visualization and result categorization for resume-job relevance.

EXPERIENCE

Power BI & Dashboarding Intern | Imarticus Learning × Bharati Vidyapeeth | August 2026 – Present

- Worked with data import and Power Query for data preparation,
- Developed dashboards to visualize key metrics and identify trends/patterns.
- Learned data modeling, visualization and dashboard design using Power BI.

Python Developer Intern | Codtech Technologies | March 2025 – April 2025

- Developed Python programs for practical software development tasks.
- Applied Python concepts including functions, data structures, file handling, and exception handling.
- Tested and debugged programs to improve code quality and reliability.

EDUCATION

Bharati Vidyapeeth College of Engineering, Pune, India

Bachelor of Technology in Electronics and Communication | July 2023 – Present | CGPA: 8.66

Sunbeam Academy ,Varanasi, India

Intermediate (CBSE) | April 2022 - March 2023 | Percentage: 77.6%

Sunbeam Academy ,Varanasi, India

Secondary Education (CBSE) | April 2020 - March 2021 | Percentage: 92.2%

CERTIFICATIONS

- Programming in Java | NPTEL
- Technology Job Simulation | Deloitte (Forage)
- MATLAB Onramp | MathWorks Training Services
